

# TABLE OF CONTENTS

	Page
<b>Module 1: Introduction to Multimedia and ToolBook</b> .....	1-1
Introduction .....	1-1
What is Multimedia? .....	1-3
Uses of Multimedia .....	1-3
Computer-Based Training .....	1-3
Education .....	1-3
Special Education Needs .....	1-4
Business Presentations .....	1-5
Entertainment .....	1-5
Information Kiosks .....	1-5
World Wide Web Applications .....	1-6
Multimedia Components .....	1-6
Text .....	1-7
Still Graphic Images .....	1-7
Audio Sound.....	1-7
Animation .....	1-8
Interactive Links .....	1-8
Full-motion video.....	1-8
An Introduction to Authoring Packages .....	1-9
A First Look at ToolBook.....	1-9
Putting Together a ToolBook Application.....	1-10
The ToolBook II Product Family .....	1-10
Authoring Tools.....	1-11
Management Tools—Ingenium 6.0 .....	1-11
Distribution Tools .....	1-11
Description of ToolBook II Instructor.....	1-12
New Features of ToolBook II Instructor 8 .....	1-12
Running ToolBook II Instructor.....	1-13
Setting Up Your Authoring Environment .....	1-15
Updating Books From Earlier Versions .....	1-17
Author vs. Reader Level.....	1-17
Author Level Tools.....	1-17
Title Bar .....	1-18
Menu Bar.....	1-18
Mouse Pointer .....	1-19
Scroll Bar .....	1-19
Tool Bar .....	1-19
The Tool Palette .....	1-22
The Status Bar .....	1-25
The Catalog .....	1-26

Working with the Catalogs.....	1-27
A First Look at Selecting an Object.....	1-31
Dialog Boxes .....	1-31
Right-Click Menus .....	1-32
ToolBook Concepts .....	1-34
The Book.....	1-34
Structure of the Page: Background vs. Foreground ...	1-34
Page Navigation.....	1-35
System Cursors and Other Resources .....	1-35
Book Design and Performance .....	1-36
Properties of Objects.....	1-36
Book Properties .....	1-37
Lesson Properties.....	1-41
Page Properties .....	1-42
Button Properties.....	1-43
Field Properties.....	1-46
Extended Properties .....	1-50
A Closer Look at ToolBook Objects .....	1-51
Buttons .....	1-51
Fields .....	1-52
Record Fields.....	1-53
Hotwords.....	1-53
Graphic Objects .....	1-53
Viewers .....	1-54
List Boxes and Combo Boxes .....	1-54
Stages .....	1-55
Working with Objects .....	1-56
Creating a New Page.....	1-56
Creating an Object .....	1-56
Selecting an Object .....	1-57
Resizing an Object .....	1-58
Moving an Object .....	1-58
Using Cut, Copy, Paste, and Duplicate .....	1-58
Adding or Editing Text in a Field .....	1-59
Selecting, Changing, and Formatting Text .....	1-60
Formatting a Paragraph.....	1-61
Layering of Objects.....	1-62
Transparent Objects .....	1-63
Multiple Selection and Grouping Objects .....	1-63
More on Multiple Selection/Deleting Objects .....	1-64
Working with Palettes .....	1-65
The Color Tray .....	1-65
The Pattern Palette.....	1-66
The Line Palette.....	1-66
The Line Ends Palette .....	1-67

The Polygon Palette .....	1-67
The OpenScript Language.....	1-68
Events and Handlers.....	1-68
Working with Scripts .....	1-70
The Command Window .....	1-71
An Introduction to the Object Browser .....	1-71
An Introduction to the Page Browser .....	1-72
An Introduction to the Property Browser .....	1-73
An Introduction to the Startup Dialog Box.....	1-74
An Introduction to the Book Specialists .....	1-74
An Introduction to Templates.....	1-74
An Introduction to the ToolBook II Coach .....	1-75
An Introduction to the Actions Editor .....	1-75
Customizing the Catalog .....	1-76
Setting System Defaults .....	1-78
Saving Your Work.....	1-78
Summary .....	1-79
<b>Module 2: ToolBook II Instructor's Installed Components .....</b>	<b>2-1</b>
Introduction .....	2-1
Documentation.....	2-1
ToolBook II Utilities.....	2-3
Bitmap Editor .....	2-3
Icon Editor .....	2-4
Wave Editor.....	2-5
FTP Utility.....	2-6
Using the Version Updater.....	2-7
Summary .....	2-8
<b>Module 3: An Overview of the Startup Dialog Box .....</b>	<b>3-1</b>
Introduction .....	3-1
Welcome Tab.....	3-2
Quick Start Tab .....	3-2
Default Template .....	3-2
Blank Native ToolBook Book.....	3-3
Blank DHTML Book.....	3-3
Quick Specialist .....	3-3
Templates Tab .....	3-4
Book Specialists Tab.....	3-5
The Quick Specialist .....	3-5
The Lesson Design Specialist .....	3-5
The Full Specialist.....	3-5
Existing Books Tab.....	3-6
Summary .....	3-7

<b>Module 4: Adding Multimedia Components</b> .....	4-1
Introduction.....	4-1
Playing Multimedia .....	4-1
Media Clips .....	4-1
The Clip Manager .....	4-2
Using the Clip Manager and Clip Editor .....	4-4
Creating an Audio Clip.....	4-4
A Close Look at the Clip Editor.....	4-5
Adding a Video Clip .....	4-7
Adding a Graphic Image .....	4-9
The Stage Object .....	4-9
Stage Properties.....	4-10
Draw tab.....	4-10
Bounds .....	4-11
Pre-Effect and Post-Effect.....	4-11
Scripts to Play Media Clips .....	4-11
Playing Video Clips.....	4-12
Displaying a Graphic Image.....	4-13
Playing an Audio Clip .....	4-14
Using ToolBook II's Media Players .....	4-14
Playing an Audio Clip Using a Media Player.....	4-15
Playing a Video Clip Using a Media Player.....	4-18
Media Players (Hotwords) .....	4-19
Using the Video Players .....	4-20
Displaying a Graphic Image Using the Stage .....	4-22
Adding Media From the Catalog .....	4-24
Adding Clipart .....	4-24
Adding Icons .....	4-26
Adding a Backdrop .....	4-26
Adding an Animation .....	4-28
Adding a Web Graphic.....	4-31
Using the Reusable Graphic Placeholder.....	4-32
Summary .....	4-33
<b>Module 5: Basic ToolBook Lessons</b> .....	5-1
Introduction.....	5-1
Lesson One: Creating a Linear Application.....	5-1
Lesson Two: Creating a Nonlinear Application.....	5-9
Lesson Three: Checkmark Menu and Shared Scripts .....	5-12
Lesson Four: Different Ways to Present Information .....	5-15
Lesson Five: Adding Hyperlinks and Getting User Input.....	5-19
Lesson Six: Creating Hotwords and Record Fields .....	5-26
Lesson Seven: Customizing the Catalog .....	5-29
Lesson Eight: Creating Hidden Labels.....	5-30
Lesson Nine: Creating Animation Using OpenScript.....	5-32

Lesson Ten: Inserting a Graphic Image.....	5-33
Lesson Eleven: Creating a Viewer .....	5-34
Lesson Twelve: Using Drag and Drop and Variables .....	5-37
Lesson Thirteen: Tooltips and User-Defined Properties .....	5-40
Lesson Fourteen: Adding a Timer to Your Page.....	5-42
Lesson Fifteen: Printing or Saving to a File .....	5-43
Lesson Sixteen: List Boxes and Combo Boxes .....	5-45
Lesson Seventeen: Custom Cursors.....	5-47
Using SysCursor Command .....	5-47
Adding Custom Cursors.....	5-47
Lesson Eighteen: A Final Look at OpenScript .....	5-49
Ask Command with Put Command.....	5-49
Ask Command with Request Command .....	5-50
More Use of Notify Handlers .....	5-50
Step Command .....	5-51
Operators.....	5-51
More Use of Variables .....	5-52
Printing a Page.....	5-53
Handling Keyboard Events.....	5-57
Handling the Enter Key.....	5-58
Printing any Page with a Keyboard Event.....	5-59
Using Pop Command .....	5-60
Summary .....	5-61

<b>Module 6: Building Native Windows Applications the Specialists .....</b>	<b>6-1</b>
Introduction.....	6-1
Using the Quick Specialist.....	6-1
Overview of The Full Specialist.....	6-4
Using the Presentation Outline .....	6-6
Adding an Automatic Menu .....	6-11
Customizing the Automatic Menu .....	6-12
Adding Buttons and Fields .....	6-13
Adding Icons and Clipart.....	6-14
Importing Graphics .....	6-15
Using the Simple Training Outline.....	6-17
Setting Up Title Page/Modifying Outline.....	6-19
Using the Page Browser.....	6-20
Setting Up Table of Contents/Objectives .....	6-21
Using an Audio Player.....	6-22
Setting Up a Multiple Choice Question Object .....	6-24
Setting Up a Video Player.....	6-28
Adding Another Multiple Choice Question Object.....	6-29
Setting Up Summary/Score Page.....	6-30
Building a Quiz Book.....	6-32
Setting Up a Multiple Choice Question Object .....	6-34

Adding a True/False Question Object .....	6-36
Adding a Fill-in-the-Blank Question Object .....	6-37
Adding a Match Item Question Object .....	6-39
Adding an Order Text Question Object .....	6-43
Setting Up Summary/Score Page.....	6-45
Setting Up Log File.....	6-46
Question Checklist .....	6-47
Using Log Reader Utility .....	6-48
Creating a Custom Book Outline.....	6-49
Creating a Menu with Hyperlinked Buttons.....	6-51
Using a Hotword to Popup Another Page .....	6-52
Creating a Path Animation .....	6-54
Special Effects: Marquee, Card, Callout, Date/Time..	6-56
Using the Lesson Design Specialist.....	6-58
Importing Rich Text.....	6-61
Setting Up the Automatic Menu.....	6-61
Finishing the Book .....	6-62
Summary .....	6-63
<b>Module 7: Using AutoPackager .....</b>	<b>7-1</b>
Introduction .....	7-1
Distribution Considerations .....	7-1
Compacting Files .....	7-1
Runtime Files .....	7-1
About the AutoPackager.....	7-2
AutoPackager Options .....	7-2
Distribution Options.....	7-3
Installation Options .....	7-3
Setting Up Your Files .....	7-4
Using the AutoPackager to Create CD-ROM .....	7-4
Installing the CD-ROM Application .....	7-10
Autorun from CD-ROM.....	7-11
Summary .....	7-12
<b>Module 8: ToolBook II and Internet Deployment .....</b>	<b>8-1</b>
Introduction .....	8-1
Overview of Internet and the World Wide Web.....	8-1
Hypertext, URLs, Hypermedia, and Plugins.....	8-2
ToolBook's Neuron Plugin .....	8-4
Webbooks .....	8-5
Creating Distributed Learning Applications .....	8-5
Overview of Using Neuron.....	8-5
Creating a Neuron Application .....	8-7
Creating the Book.....	8-8
Writing the HTML for Displaying the Book .....	8-11

Introduction to DHTML .....	8-12
Creating a DTML Application.....	8-13
Creating the Book.....	8-13
An Introduction to the Web Specialist.....	8-18
Exporting to DHTML.....	8-18
Expert Mode for Exporting to DHTML .....	8-23
Internet Setup .....	8-23
Neuron .....	8-24
HTML/Java with Earlier Browsers.....	8-24
Hybrid CD Applications .....	8-25
Summary .....	8-26
<b>Module 9: Supplementary Lessons.....</b>	<b>9-1</b>
Introduction.....	9-1
Adding Animated GIFS.....	9-1
Adding a Hotspots Graphic and a Web Graphic Placeholder.....	9-2
Adding Bullets .....	9-7
Adding Tooltips .....	9-8
Adding a Multiple Choice/Multiple Correct Question Object .....	9-10
Adding a Rating by Multiple Choice Question Object .....	9-11
Adding a Slider Question Object .....	9-12
Adding a Definable Drop Target Question Object.....	9-14
Adding a Definable Drop Target Question Object (Multiple Responses).....	9-18
Adding a Drop Target Question Object .....	9-20
Adding a Drag Objects Question Object .....	9-22
Adding an Arrange Objects Question Object .....	9-23
Using the Action Objects.....	9-25
Linking Between Two Books.....	9-28
Importing Pages From Another Book.....	9-29
Cell Animation .....	9-31
Using Glossary Function .....	9-32
Creating the Glossary .....	9-32
Creating Book with Glossary Terms .....	9-33
Using the Popup Index Object.....	9-34
Working with Various Button Graphics.....	9-35
A Review of the Resource Manager .....	9-37
Summary.....	9-39
<b>Module 10: Using the Actions Editor .....</b>	<b>10-1</b>
Introduction.....	10-1
Using the Actions Editor .....	10-1
Events in the Actions Editor.....	10-3
Inserting Actions.....	10-3
General.....	10-4

Object .....	10-4
Prompts .....	10-4
Navigation .....	10-4
Scoring .....	10-5
Media .....	10-5
Control .....	10-5
Supported Properties .....	10-5
Buttons .....	10-5
Fields .....	10-6
Combo Boxes and List Boxes .....	10-6
Draw Objects and Graphics .....	10-6
Media .....	10-6
Scoring and Tracking Options .....	10-6
Other Properties .....	10-7
Building Expressions: Functions and Operators .....	10-7
Displaying an Alert Box .....	10-8
Displaying a Query .....	10-9
Setting Up and Displaying a Variable .....	10-11
Adding a Comment .....	10-12
Displaying Popup Text .....	10-13
Displaying a Confirmation with Navigation .....	10-14
Setting Properties .....	10-16
Visible .....	10-17
Enabled .....	10-20
Text .....	10-21
Caption and Conditions .....	10-22
RGBFill .....	10-24
Checked .....	10-26
SelectedItemText .....	10-28
Setting Layers .....	10-31
Shared Actions .....	10-32
Using Control Actions .....	10-34
If, Else If, and Else .....	10-34
Using Step Loop .....	10-36
Checking for Field Input .....	10-37
Setting Up a Counter .....	10-39
Customizing a Question Object .....	10-41
Building a Calculator for Conversions .....	10-42
Checking for Numerical Input: The IsNumber Function .....	10-44
Trigger Other Objects .....	10-44
Using On Property Change Event .....	10-46
Controlling Media .....	10-47
Playing Media .....	10-47

Media Complete and Reset.....	10-48
Adding a Timed Delay and Automatic Navigation ...	10-49
Stopping, Pausing, and Playing Media .....	10-50
Adding Time Markers with Universal Media Player .....	10-51
Displaying a Document .....	10-53
User Events .....	10-54
Event Parameters .....	10-55
Handling Keyboard Events.....	10-56
ActiveX Methods .....	10-57
Scoring a Quiz .....	10-60
Using HTTP Post Action .....	10-63
Introduction to HTTP Post Action.....	10-63
Setting Up an ASP: ASPeMail.....	10-63
A Simple ToolBook Form Using HTTP Post .....	10-66
Writing the ASP to Process the Form.....	10-69
Setting HTTP Post Parameters.....	10-70
Summary.....	10-73
<b>Module 11: Special Topics .....</b>	<b>11-1</b>
Introduction.....	11-1
Adding Panoramas Using Quicktime .....	11-1
About QuickTime .....	11-1
About IPIX Builder.....	11-2
Adding the Panorama File to Web Page.....	11-2
The Universal Media Player.....	11-3
Using Popup Video Player .....	11-4
Video Synchronization.....	11-6
Streaming Audio and Video .....	11-8
Introduction to Active-X Controls.....	11-10
Adding Animated GIFs using Active-X Control.....	11-10
Introduction to Microsoft Agents .....	11-12
Microsoft Agent Requirements.....	11-14
Installing Microsoft Agent 2.0.....	11-14
Using Microsoft Agents in ToolBook II Instructor .....	11-14
Background and Credits.....	11-14
Methods and Events.....	11-15
Adding the Microsoft Agent Control.....	11-15
Setting up the Agent Control.....	11-17
Writing Script for Animate and Speak .....	11-18
Hiding the Balloon Text .....	11-19
Speaking Text from Field.....	11-20
Reading Text from File .....	11-21
Playing a WAV Sound File.....	11-22
Setting Character Position.....	11-23
Merlin with Question Page.....	11-24

Setting a User-Defined Property to Control Agent ..	11-25
Using Flash in ToolBook II .....	11-27
Using the Tool Palette to Draw Flash Control .....	11-27
Using the Universal Media Player to Play Flash .....	11-28
Playing/Stopping Flash with Actions Editor.....	11-29
Controlling a Flash Movie with Actions Editor.....	11-30
More Use of ExtGotoFrame and using extReWind..	11-32
Getting a Variable from a Flash Movie .....	11-33
Setting a Variable in a Flash Movie .....	11-34
Using Bookmark Feature in ToolBook .....	11-36
The Bookmark File .....	11-36
The Asym_BeenHere Property.....	11-37
Writing to an INI File.....	11-38
Storing Information on Single User .....	11-39
Retrieving Information on Single User.....	11-41
Updating Information in an Ini File.....	11-42
Storing Bookmark Information for Multiple Users ..	11-43
Storing/RecallingScore for Multiple Users.....	11-44
Customizing a Log File .....	11-44
Summary .....	11-45

<b>Module 12: Advanced Topics .....</b>	<b>12-1</b>
Introduction .....	12-1
A Better Message Box .....	12-1
Using the Asym_Request and Asym_Ask Functions .....	12-2
The Asym_Request Function .....	12-2
The Asym_Ask Function .....	12-4
Denny Dedmore's Ask/Request Boxes .....	12-6
Adding the System Book .....	12-6
Syntax for Request Dialog Box.....	12-6
Syntax for Ask Dialog Box.....	12-7
Using the Request Box .....	12-7
Using the Ask Box.....	12-9
Creating a Custom Catalog .....	12-10
The Repair Kit .....	12-11
Introduction to DLLs .....	12-13
Using TBDOS.DLL .....	12-14
Using TBWIN.DLL .....	12-14
USING TBDLG.DLL .....	12-15
Using OPENDLGLFN( ) .....	12-16
Using PopMenu .....	12-18
Using GetIniVar and SetIniVar for Tracking and Bookmarking..	12-19
Arrays.....	12-26
Summary.....	12-27

<b>Module 13: Ingenium and the ToolBook LMS .....</b>	<b>13-1</b>
Introduction .....	13-1
Introduction to Learning Management Systems .....	13-1
Ingenium Learning Management System .....	13-1
Features of Ingenium 6.0.....	13-2
Creating Online Learning Content with ToolBook.....	13-3
Publishing Your Application.....	13-3
Creating a Learning Experience for a CBT Course ....	13-3
Create Event From Learning Experience Form.....	13-4
Using the ToolBook Learning Management System .....	13-5
Creating the Course .....	13-5
Setting Up Your ToolBook LMS.....	13-7
The ToolBook LMS Interface.....	13-8
Introduction to click2learn.manager .....	13-8
Using the Site Configuration Manager.....	13-9
Preparing Instructor to Use Your LMS Site .....	13-10
Publishing your Book (Course to LMS) .....	13-10
Publishing the New Content .....	13-14
Student Log On for a Free Course .....	13-17
Adding Users to Your LMS .....	13-18
Using the Report Manager .....	13-18
Summary .....	13-19
 <b>Appendix A: Internet Resources.....</b>	 <b>A-1</b>
